15 OCT 1971

Honorable Bob Wilson  
House of Representatives  
Washington, D.C. 20515

Dear Mr. Wilson:

This is in reply to your correspondence of 30 September 1971 forwarding for consideration a package of material sent to you by

[redacted]  
Inc., soliciting funds for research.

Last year [redacted] had written directly to the Central Intelligence Agency soliciting funds for research. At that time she was advised that though the Agency was interested in developments in scientific and technical fields which affect national goals, we were not actively supporting research in parapsychology and related fields.

[redacted] present request has been carefully reviewed and our prior position is confirmed.

We appreciate your interest and wish [redacted] success in her most interesting efforts. We regret, however, that we cannot provide [redacted] any financial assistance in her continued research.

Sincerely,

[redacted]  
John M. Maury  
Legislative Counsel
